Rahul Shah

rahulshah.design/wikimedia | 240.694.5558 | rahulshah.design@gmail.com

Ed-tech product designer grounded in research, experimentation, accessibility, and design systems.

Experience

Chiron — *Personal Project* **Mar 2026 - Present**

- Built a Claude Skill that acts as a Socratic tutor: it finds where a learner is stuck, builds a lesson around that gap, and adapts the next one.

Encoura — *Product Designer* **Aug 2021 - Present**

- Redesigned onboarding for 150,000+ students from classroom research, chunking a 2x longer survey; in Encoura's first in-app A/B test, completion held near 84%.
- Own the Encourage Design System: governance and Storybook/Chromatic UI review so engineers and designers compose from consistent components.
- Led the migration of Encourage (150,000+ students) to React Native, redesigning layouts to hold up on school-issued devices and meet WCAG 2.1 AA.
- Drive much of the team's product analytics, presented at Data Jams; pioneered AI prototyping at Encoura with Figma Make and Claude Code.
- Built the counselor workflow side of Encourage for Educators, including student status tracking and roster tools used to manage hundreds of students simultaneously.

Rochester Regional Health — *UX/UI Intern* **Feb 2020 - Aug 2020**

- Designed a contact tracing system for Rochester Institute of Technology to monitor the spread of COVID-19 for over 18,000 students and staff, reducing user workload by half.

Prudential Financial — *UX Research Intern* **Jun 2019 - Aug 2019**

- Conducted usability tests and user interviews with insurance brokers on a Salesforce CRM application to validate the usability and accessibility of new features.

Education

M.S. Learning Design & Technology — University of Maryland Global Campus **2024 – 2026**

B.S. Human-Centered Computing — Rochester Institute of Technology **2017 – 2021**

Minors: American Sign Language, Psychology

Skills

UX Design: Design Systems, Prototyping, Information Architecture, Wireframing, UX Writing

Research: A/B & Usability Testing, Interviews, Surveys, Research Plans, Analytics

Accessibility: WCAG 2.1 AA, CPACC (in progress), Keyboard & Screen-Reader-Aware Design

Learning Design: Self-Paced Instruction, ADDIE, Universal Design for Learning

AI: Figma Make, Claude Code, MCP Integrations (Pendo), AI-Assisted Analysis & Prototyping

Front-End: HTML, CSS, JavaScript, React Native

Tools: Figma, Pendo, Sketch, Adobe Creative Suite, Lottie Creator
