Rahul Shah

rahulshah.design | 240.694.5558 | rahulshah.design@gmail.com

Ed-tech product designer focused on accessible, buildable, and effective learning experiences.

Experience

Chiron — *Personal Project* **Mar 2026 - Present**

- Built a Claude skill for building micro-courses that gates progression on demonstrated mastery, adapting scaffolding based on Socratic dialogue and misconception tracking.

Encoura — *Product Designer* **Aug 2021 - Present**

- Own the Encourage Design System; re-architected its governance so engineers and designers compose from consistent components with no case-by-case review.
- Rebuilt student onboarding and accounts from classroom research; doubled the intake survey yet held completion near 84% in Encoura's first in-app A/B test.
- Built the counselor workflow side of Encourage for Educators, including student status tracking and roster tools used to manage hundreds of students simultaneously.
- Led the migration of Encourage (150,000+ students) to React Native, redesigning layouts to hold up on school-issued devices and meet WCAG 2.1 AA.
- Pioneered AI prototyping at Encoura with Figma Make and Claude Code; drive much of the team's product analytics and first connected Pendo to Claude Code over MCP.

Rochester Regional Health — *UX/UI Intern* **Feb 2020 - Aug 2020**

- Designed a contact tracing system for Rochester Institute of Technology to monitor the spread of COVID-19 for over 18,000 students and staff, reducing user workload by half.

Prudential Financial — *UX Research Intern* **Jun 2019 - Aug 2019**

- Conducted usability tests and user interviews with insurance brokers on a Salesforce CRM application to validate the usability and accessibility of new features.

Education

M.S. Learning Design & Technology — University of Maryland Global Campus **2024 – 2026**

B.S. Human-Centered Computing — Rochester Institute of Technology **2017 – 2021**

Minors: American Sign Language, Psychology

Skills

UX Design: User Flows, IA, Wireframes & Specs, Design Systems, Prototyping

AI: Figma Make, Claude Code, MCP Integrations (Pendo), AI-Assisted Analysis & Prototyping

Front-End: HTML, CSS, JavaScript, React Native

Accessibility: WCAG 2.1 AA, CPACC (in progress), Keyboard & Screen-Reader-Aware Design

Learning Design: Self-Paced Instruction, ADDIE, Universal Design for Learning

Research: Discovery, Interviews, Contextual Inquiry, A/B & Usability Testing, Analytics

Tools: Figma, Pendo, Sketch, Adobe Creative Suite, Lottie Creator
